UnlockerTool Crack PC/Windows 2022 [New]

UnlockerTool is a simple application designed for helping you delete locked files and folders. If you suspect that you have come across a locked file, run UnlockerTool on your computer and press the 'delete' button on its interface. UnlockerTool will analyze the content of the file and display the name of the application that currently holds the lock. If you are not confident that you can delete it, you can choose the Recycle Bin as the final destination, where the file will be sent.
