this is your screen. You have listened. The Elder Scrolls Online is officially official. The new massively online role-playing game from ZeniMax Online Studios and Bethesda Softworks is available for download on Steam, and it's the most intensive MMO launch the world has seen since World Of Warcraft. The 10 day free trial will give you access to the demo version of the game, which has most of the game's major features. The full game costs \$45 and unlocks access to all the game's content. You can also buy the game outright for \$60, which unlocks all of the game's content. There is a PvP battle pass for \$14.99 and a fast-travel service for \$4.99. The minimum system requirements are listed below. 1080/FHD - No problems so far but I only have an i5-4590 and a 5820. Speed - I like to think I'm not terribly old school (I have a 10 year old computer I still play on) and it's just me I'm not seeing this. Is my computer just too slow to give me a 720p title? I think I'll be swapping this game out after a month or so
