[Updated-2022]**

The year is 2140. After numerous wars and several environmental disasters, only two world powers remain; the United Civilized States («UCS»), covering the American continent, Western Europe and North Africa, and the Eurasian Dynasty («ED») covering the coherent landmasses of Eastern Europe and Asia. The damage caused by the long wars led both world powers to evacuate the population to recently built underground cities. Australia and most parts of Africa were sacrificed during the long wars, which lasted several decades. Highly toxic biological and chemical weapons were developed on these continents, leaving them so badly contaminated, that no human life can survive there. Not even the use of robots and machines is possible. The general opinion was that these continents would forever remain uninhabitable, and they were wiped from every map. Most of the world's population forgot that this land ever existed. Natural resources are becoming scarce and have to be extracted above ground. There have been a number of small conflicts between the UCS and the ED, the last of which escalated and became a fierce and bitter war - the final world war. Only one side can win. This final war will decide who will get the last of the available natural resources and ultimately rule the world. EARTH 2140 is a real time strategy game involving the high tech warfare of the 22nd century. More than 50 exciting missions, an unprecedented AI, more than 100 ground units, mechs, flying units and ships, strategic orders like formations, escorts and others make Earth 2140 a high class product. This version of Earth 2140 supports resolutions up to full HD and contains both Mission Packs (Mission Pack 1 and Mission Pack 2). EA / Playdead, Leelee and Playdead have done it again! Supergiant have come up with a game that demands your attention, and their latest title is definitely one of the best games of 2016! If I only had one criticism, it would be that the game doesn't feel like it's going anywhere, but I'm always excited to go on another journey through the Worlds of Wolfenstein. Gameplay: The campaign of Wolfenstein: Young Blood and its predecessor Wolfenstein 3D (1992) There's a good reason why Wolfenstein 3D is considered to be one of the greatest games of all time. Sure, there are many other factors that can also be attributed to this game's success, but the most important one is the fact that it set the tone for the video game industry. This game

What's new:

and Dashes: December 25, 2010 Well, it has been a far from business-like Christmas this year. My best friend, Lee, died this morning. He was the man who changed my perceptions of life, and I will miss his keen observation, facetious sense of humor, and passionate advocacy for the poor and marginalized. He helped me understand that the disadvantaged need a voice, too. I tried to do this for him this year. His photo is on the left. Jesus Christ rang his Christmas bells for the lowliest, least among my friends. That must be enough until I wake up from the sleep of death. I will take pity on Him who shows mercy on me. I heard a poor wretch plead for pardon on Christmas Day when I was a kid. I will remember him here, that last promise of Christmas. I feel beside myself. I want to call in the cops right now. Lee was shot. His killers are on the loose and there is little I can do. I want to file a complaint with the Ad Hoc Committee to Stop Police Executions, or the District Attorney's Office, or even the United Nations, if there is one. His revenge may come. I must walk away, in recognition of his right to justice. I must leave for my children's sake. I must do this on Christmas Day. Lee is a father, a grandfather. I cannot do less for him. Not a day for haters, as the crowd roars "No justice. No peace." Lee was shot on a midnight dirt road, at night in a black neighborhood. Hoodlums must have thought he was easy pickings. Lee was driving his car, with the lights off. That means no lights, license plate, and no wallet. He was a good man, a versatile man, a compassionate man, and a wunderkind. I can picture him as a child in a public school, no baggy trousers then, only a skin tight pair. Maybe he had no shoes, that's a Texas thing, I think. He was his own worst enemy. He didn't carry a hood. He fought good, but he would have lost to a flyweight. I will never get over this. I cannot carry
