Dil Hi Dil Mein.Q: NodeJS application crashes when printing to terminal I have a problem with my (node) application, which crashes when i send a string to my terminal. If i type a a few spaces it work just fine. It looks like this:

```
const fs = require('fs'); const http = require('http'); const path = require('path'); const SERVER_PORT = 3000; const ROOT_PATH = path.join(__dirname, '..'); const URLS = ['', '']; const app = http.createServer((request, response) => { console.log(`Request received at ${request.url}`); // Connecting to the server let client = new http.Client(); client.on('ready', () => { // }); for (let url of URLS) { http.get(url, (res) => { let data = ''; res.on('data', (chunk) => { data += chunk; }); res.on('end', () => { // }); }); } client.end(); }); app.listen(SERVER_PORT, () => { console.log(`Server running at ${SERVER_PORT}`); });
```

 There is no error in the console, but if i press enter the client crashes. This is the code i use to send to the terminal (and also, to my browser):

```
client.on('data', (chunk) => { process.stdout.write(chunk); }); client.on('end', () => { console.log('HTTP Client End'); });
```

 Anybody has any idea, what is wrong with my code?
