I have a column called 'text' text in this column may have some words which exceed the number of characters. I want to calculate the count of words that may exceed characters. Please let me know if you have any query on the same. A: You have to split and calculate the number of unique words and calculate the length of each word. select word, count(*) from (select s.text, s.word, word(s.text, charindex(',', s.text) + 1, len(s.text)) -
